

F1 SA Helmet

[A Variant of Europe's Most Successful
Fire Service Helmet]

MSA GALLET

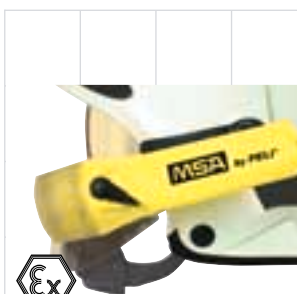

F1 SA Helmet

The F1 SA fire fighting helmet belongs to the worldwide recognised F1 helmet system range. It complies with the European standard EN 443. Together with the full face masks and all other fire fighting safety products from MSA, this helmet system offers you perfect protection against shock, flame, penetration, electricity and radiant heat.

- Like the F1, a most comfortable wearing helmet
- The special shape of the helmet shell provides optimal hearing capability for wearer
- Designed with a rapid fitting facemask system on the helmet – no more spider straps over the head
- The helmet front plate can be personalized upon customer's request
- Ability to integrate a communication system
- You can mount the XP flashlight on the side of helmet with a clip

Technical specifications

Weight of the face shield	150 g
Weight of the eye screen	95 g
Total helmet weight	1280 g
Sizes	from 53 cm to 60 cm
Approvals	certified to EN 443

A very bright intrinsically safe XP flashlight

Facemask rapid fitting system

Front plate which can be personalized

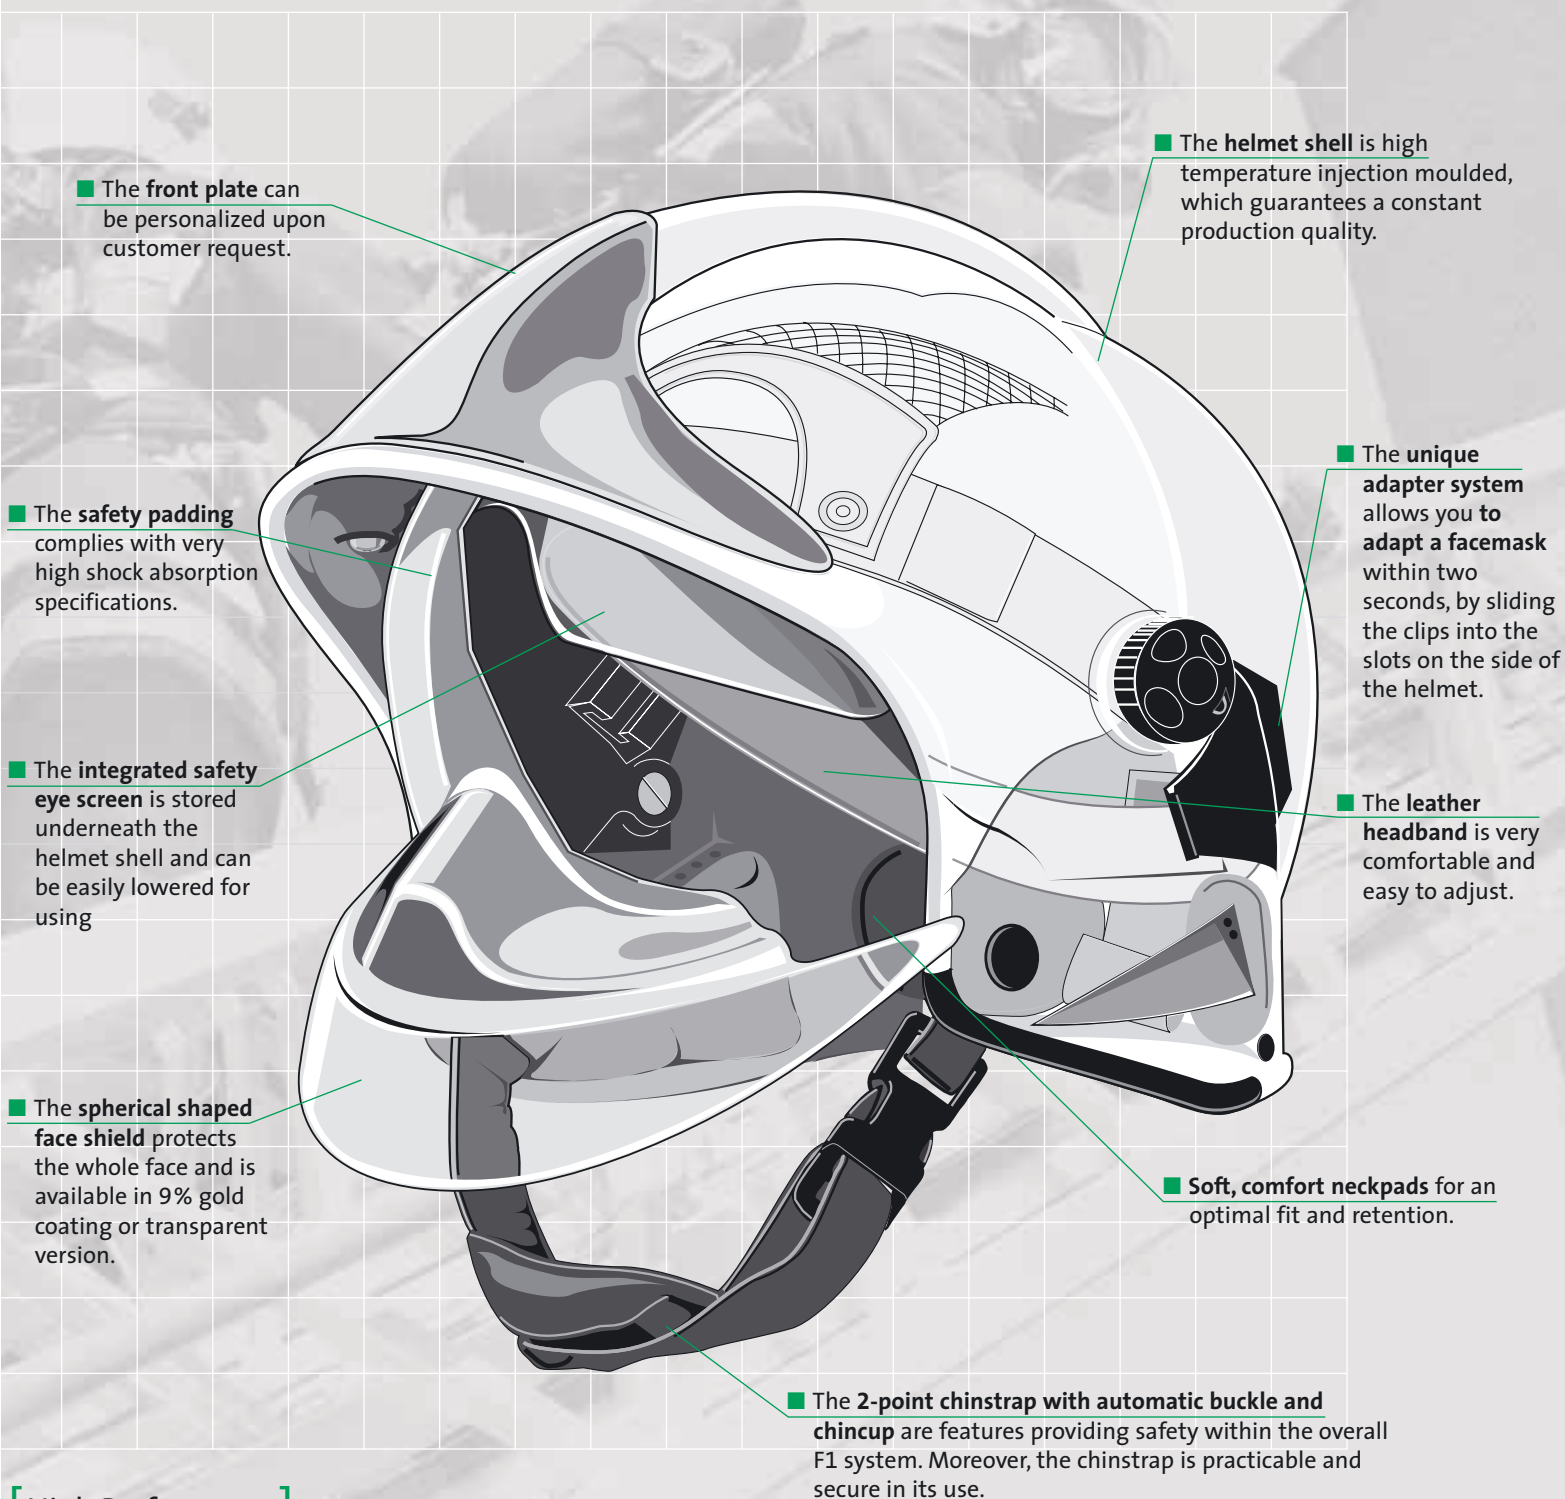

Aluminised or Wool-Nomex neckcurtains

An integrated communication system

■ The **front plate** can be personalized upon customer request.

■ The **helmet shell** is high temperature injection moulded, which guarantees a constant production quality.

■ The **safety padding** complies with very high shock absorption specifications.

■ The **unique adapter system** allows you to adapt a facemask within two seconds, by sliding the clips into the slots on the side of the helmet.

■ The **integrated safety eye screen** is stored underneath the helmet shell and can be easily lowered for using

■ The **leather headband** is very comfortable and easy to adjust.

■ The **spherical shaped face shield** protects the whole face and is available in 9% gold coating or transparent version.

■ **Soft, comfort neckpads** for an optimal fit and retention.

■ The **2-point chinstrap with automatic buckle and chincup** are features providing safety within the overall F1 system. Moreover, the chinstrap is practicable and secure in its use.

- [High Performance]
- [Great Comfort and Practicability]
- [Complete Mask-Helmet-Combination System]
- [Optional Communication System]
- [Extensive Range of Accessories]
